

# Electrical Foreman

## *Field Wiring and Control Panel Assembly*

FAS has an opportunity for an experienced Electrical Foreman. FAS designs and assembles a significant quantity of control panels each year, and the candidate will work with a highly skilled team that focuses on safety, quality, and on-time completion of control panels.

### **Required Experience:**

- ◆ At least five (5) years of experience in control panel assembly
- ◆ Must have leadership experience in electrical or panel assembly work

### **The Electrical Foreman position involves:**

- ◆ Primarily responsible for leading electrical installations and retrofits at customer facilities
- ◆ Secondary responsibility is leading shop floor activities when not at customer sites
- ◆ Be adaptable to adjusting resources and schedules as required by commercial situations
- ◆ Must interact with project managers and engineers to deliver high quality systems on time
- ◆ This is a customer-facing role; therefore, the candidate must be able to maintain professional communication under pressure.
- ◆ Participate in interviewing and selecting candidates for technician positions
- ◆ Work well with others to meet the company's safety and quality standards
- ◆ This is a full-time hourly position with overtime work as required to meet delivery commitments.

### **Skills and Knowledge Required:**

Ability to create work schedules and manage technicians

Travel for this position is estimated at 30% – 50%.

*Factory Automation Systems is an equal opportunity employer and a drug-free workplace.  
The company offers competitive compensation based on skills and experience.  
FAS has a comprehensive benefits package with medical and dental insurance,  
life insurance, paid vacation, paid holidays and a 401(k) plan with company matching.*
